

RFSI WA Regional Product Examples

This list is designed to help you determine if and when your commodity, and the project activity with that commodity is in the middle of the supply chain. (It is not

	Eligibility question	Production Ends	Middle of the supply chain begins	Middle of the supply chain ends
AGGREGATION	For Human Consumption?		This IS MOTSC	When product (or value added product) is displayed to end user (to consume).
AGRICULTURAL PRODUCTION	For Human Consumption?	This IS production		
APPLES	For Human Consumption?	After picked	After picked	When product (or value added product) is displayed to end user (to consume).
APRICOTS	For Human Consumption?	After picked	After picked	When product (or value added product) is displayed to end user (to consume).
AQUACULTURE	For Human Consumption?	After product is removed from its habitat to be processed		When product (or value added product) is displayed to end user (to consume).
ASPARAGUS	For Human Consumption?	After picked	After picked	When product (or value added product) is displayed to end user (to consume).
BANANNAS	For Human Consumption?	NOT REGIONAL		
BARLEY	For Human Consumption?	After combine harvest	Once removed from storage/transport	When product (or value added product) is displayed to end user (to consume).
BEDDING PLANTS	For Human Consumption?	NOT ELIGIBLE		
BEER (Value added wheat, hops or barley)	For Human Consumption?		After (barley/wheat/hops) removed from transport	When product (or value added product) is displayed to end user (to consume).
BLUEBERRIES	For Human Consumption?	After picked	After picked	When product (or value added product) is displayed to end user (to consume).

CANOLA (value added Rapeseed)	For Human Consumption?		Once removed from storage/transport	When product (or value added product) is displayed to end user (to consume).
CARROTS	For Human Consumption?	After picked	After picked	When product (or value added product) is displayed to end user (to consume).
CATTLE	NOT ELIGIBLE			
CBD	NOT ELIGIBLE			
CHERRIES	For Human Consumption?	After picked	After picked	When product (or value added product) is displayed to end user (to consume).
CHICKPEAS	For Human Consumption?	After plant is picked	After storage	When product (or value added product) is displayed to end user (to consume).
CACAO	For Human Consumption?	NOT REGIONAL		
CHRISTMAS TREES	For Human Consumption?	NOT ELIGIBLE		
CIDER (value added fruit)	For Human Consumption?		After picked	When product (or value added product) is displayed to end user (to consume).
CO2 (food ingredients are eligible)	For Human Consumption?			When product (or value added product) is displayed to end user (to consume).
CORN	For Human Consumption?	After picked	After picked	When product (or value added product) is displayed to end user (to consume).
CORN, SILAGE	For Human Consumption?	NOT ELIGIBLE		
CUT GREENS	For Human Consumption?	After cut	After cut	When product (or value added product) is displayed to end user (to consume).
CUT FLOWERS	For Human Consumption?	NOT ELIGIBLE		
DIETARY SUPPLEMENTS	NOT ELIGIBLE			

DISTRIBUTION	For Human Consumption?		This IS MOTSC	When product (or value added product) is displayed to end user (to consume).
EGGS	For Human Consumption?	After egg is collected	After egg is collected	When product (or value added product) is displayed to end user (to consume).
FARMING	NOT ELIGIBLE	This IS production		
FARMED FISH, AQUACULTURE (raised in a controlled environment)	For Human Consumption?	After fish is removed from the environment	After fish is dispatched	When product (or value added product) is displayed to end user (to consume).
FIBER PRODUCTION	For Human Consumption?	NOT ELIGIBLE		
FLOWERING PLANTS, POTTED, INDOOR USE, POTS	For Human Consumption?	NOT ELIGIBLE		
FOLIAGE PLANTS	For Human Consumption?	NOT ELIGIBLE		
GRAPES	For Human Consumption?	After bunches are cut from vine	After bunches are thinned	When product (or value added product) is displayed to end user (to consume).
GROWING MEDIUMS	For Human Consumption?	NOT ELIGIBLE		
HAY	For Human Consumption?	NOT ELIGIBLE		
HAY, ALFALFA	For Human Consumption?	NOT ELIGIBLE		
HAYLAGE	For Human Consumption?	NOT ELIGIBLE		
HEMP (Fiber, CBD)	NOT ELIGIBLE			
HEMP SEED (food ingredient eligible)	For Human Consumption?		Once removed from storage/transport	When product (or value added product) is displayed to end user (to consume).
HERBS	For Human Consumption? Not Dietary supplement?	After picked	After picked	When product (or value added product) is displayed to end user (to consume).
HONEY	For Human Consumption?	After removed from frame	After removed from frame	When product (or value added product) is displayed to end user (to consume).

HOPS	For Human Consumption?	After bines are cut	After cones are removed from stem	When product (or value added product) is displayed to end user (to consume).
LENTILS	For Human Consumption?	After cut	After collected from swaths	When product (or value added product) is displayed to end user (to consume).
MARIJUANA	NOT ELIGIBLE			
MEAT PRODUCTS	NOT ELIGIBLE			
MILK (animal based source)	For Human Consumption?	After removed from udder	After removed from udder	When product (or value added product) is displayed to end user (to consume).
MILK (plant based source)	For Human Consumption?	After combine harvest/ drupes fall	Once removed from storage/transport	When product (or value added product) is displayed to end user (to consume).
MINT	For Human Consumption?	After cut	After cut	When product (or value added product) is displayed to end user (to consume).
MINT, OIL (food ingredient)	For Human Consumption?		After cut	When product (or value added product) is displayed to end user (to consume).
MUSHROOMS	For Human Consumption?	After picked	After picked	When product (or value added product) is displayed to end user (to consume).
NURSERY STOCK	For Human Consumption?	NOT ELIGIBLE		
OIL SEED	For Human Consumption?		After removal from storage	When product (or value added product) is displayed to end user (to consume).
ORGANIC PRODUCTION	NOT ELIGIBLE		This IS production	
OYSTERS, AQUACULTURE (raised in a controlled environment)	For Human Consumption?	When oyster is removed from the ocean for the last time	At washing	When product (or value added product) is displayed to end user (to consume).
PASTURE MANAGEMENT	For Human Consumption?	This IS production		

PEACHES	For Human Consumption?	After picked	After picked	When product (or value added product) is displayed to end user (to consume).
PEARS	For Human Consumption?	After picked	After picked	When product (or value added product) is displayed to end user (to consume).
PEAS	For Human Consumption?	After picked	After picked	When product (or value added product) is displayed to end user (to consume).
POULTRY	NOT ELIGIBLE			
PROCESSES THAT CREATE FOOD GRADE PRODUCTS	For Human Consumption?			When product (or value added product) is displayed to end user (to consume).
PROPAGATIVE MATERIAL	For Human Consumption?	NOT ELIGIBLE		
PUMPKINS	For Human Consumption?	After picked	After picked	When product (or value added product) is displayed to end user (to consume).
RASPBERRIES	For Human Consumption?	After picked	After picked	When product (or value added product) is displayed to end user (to consume).
RAPESEED	For Human Consumption?	After combine harvest	Once removed from storage/transport	When product (or value added product) is displayed to end user (to consume).
REGENERATIVE AGRICULTURE	For Human Consumption?	This IS production		
SALMON (raised in a controlled environment)	For Human Consumption?	After removed from the water	After dispatched	When product (or value added product) is displayed to end user (to consume).
SHELLFISH (raised in a controlled environment)	For Human Consumption?	After removed from intertidal zone	At washing	When product (or value added product) is displayed to end user (to consume).
STRAWBERRIES	For Human Consumption?	After picked	After picked	

SUGARBEETS	For Human Consumption?	After picked	After transport/storage	When product (or value added product) is displayed to end user (to consume).
TRAINING/EDUCATIONAL	Training is about products for human consumption?	Training is NOT about farming or production	Training IS about MOTSC activities	Training is NOT about retail sales activities.
TREE NUTS	For Human Consumption?	After picked from tree or ground	After debris removed	When product (or value added product) is displayed to end user (to consume).
MICRO GREENS	For Human Consumption?	After maturity	At packing/shipping	When product (or value added product) is displayed to end user (to consume).
WHEAT	For Human Consumption?	After combine harvest	After chaf is removed	When product (or value added product) is displayed to end user (to consume).
VERTICAL FARMING	NOT ELIGIBLE	This IS production		
ORGANIC PRODUCTION (farming production)	NOT ELIGIBLE	This IS production		
WINE (value added grapes)	For Human Consumption?	After bunches are cut from vine	After bunches are thinned	When product (or value added product) is displayed to end user (to consume).
