Chapter 16-240 WAC

WSDA GRAIN INSPECTION PROGRAM—DEFINITIONS, STANDARDS, AND FEES

WAC 16-240-010 Definitions.

"Business day" means Monday through Friday, excluding state holidays.

"AMS, FGIS" means the United States Department of Agriculture, Agricultural Marketing Service, Federal Grain Inspection Service.

"Department" means the Washington State Department of Agriculture.

"Federal fiscal year" means October 1st through September 30th for USDA, AMS, FGIS.

"Fee" means any charge made by the department for:

(1) Inspecting and handling any commodity; or
(2) Any service related to weighing or storing grains or commodities.

"Fiscal year" means July 1st through June 30th for the state of Washington.

"Metric ton" means two thousand two hundred four and six-tenths pounds.

"Minimum operating fund balance" or "MOFB" means six months of grain inspection program operating expenses to ensure stable service delivery, meet future needs, and protect against financial instability. The factors that the department considers when setting the annual MOFB under WAC 16-240-043 include the projected program staff salary and benefits; costs of the program's goods and services, including transportation; costs associated with the department's administrative support of the program; and any additional costs associated with program oversight by USDA/FGIS.

"OA" means Official Agency as recognized by the United States Department of Agriculture, AMS, FGIS.

"Official commercial inspection services" means a contractual agreement between the applicant and the department for services specified by the applicant that will be provided at an applicant’s facility.

"Revenue minimum" means the amount of revenue that must be collected by the department to offset expenses. In order to act as an official inspection agency under the United States Grain Standards Act and the Agricultural Marketing Act of 1946, the program must collect revenue to offset expenses. The Grain Inspection Program is supported entirely by the fees it generates from the services it provides as required by RCW 22.09.790. The circumstances under which charges occur to collect the revenue minimum are stated in WAC 16-240-038.

"Service point" means the Washington State Department of Agriculture offices and surrounding service areas authorized by the Federal Grain Inspection Service to provide sampling, inspecting, weighing, and certification services.

"Shift" means an established period of staffing for up to twelve hours at transloading facilities or up to eight hours at export port or domestic service point locations. Service requests in excess of the established period would require requesting an additional shift. Any work beyond the established shift period constitutes an additional shift.

"Unstaffed export locations" means a facility that does not have a permanent staffing request in place for day, night, swing, or graveyard shifts.

"USDA" means the United States Department of Agriculture.

WAC 16-240-038 Revenue minimum determination. The circumstances under which the department adjusts rates to meet the revenue minimum are as follows:

(1) When the daily volume of work at a service location at the established fees does not generate revenue at least equal to the straight time hourly rate per hour, per employee, a sufficient additional amount, calculated by using the straight time hourly rate per hour, per employee, will be added to the established fee amount to meet the revenue minimum, except as provided in subsection (2) of this section.

(2) The daily revenue minimum charge applies only to the Tier 1 metric tonnage rate shown in WAC 16-240-070(2)(b) at USGSA Table 1 and in WAC 16-240-080(2)(b) at AMA Table 1. When either a Tier 2 or Tier 3 rate is in effect (WAC 16-240-043, WAC 16-240-070, and 16-240-080), export locations will not be subject to daily revenue minimum charges during the Tier 2 or Tier 3 rate period allowed under WAC 16-240-043.

(3) Work volume daily averaging at export locations will be determined as follows:
   (a) When the daily volume of work at the established fees does not generate revenue equivalent to the straight time hourly rate per hour, per employee, including applicable supervisory and clerical employee hours, according to the staffing needs at the facility, the department will charge an additional fee, except as provided in subsection (2) of this section.
   (b) The straight time hourly rate will be charged per hour, per employee.
   (c) Service cancellation fees, WAC 16-240-054, are not considered to be revenue under daily averaging.

(4) Work volume monthly averaging at export locations will be determined as follows:
   (a) When the applicant has requested the department to establish one or more permanent shifts, the applicant may request, in writing, that the revenue minimum required for staffing at the location be determined based on the completed invoices for the calendar month, instead of paying the fees for daily volume of work.
   (b) Under this subsection (4), and except for when the work volume monthly averaging for the revenue minimum is determined under (a) of this subsection, when the monthly volume of work at the established fees does not generate revenue equivalent to the straight time hourly rate per hour, per employee, including applicable supervisory and clerical employee hours, according to the staffing needs at the facility, a sufficient additional amount, calculated by using the straight time hourly rate per hour, per employee, will be added to the established fee amount to meet the revenue minimum for each month during which work volume monthly averaging applies. As provided under (f) of this subsection, this revenue minimum adjustment applies only during any month when Tier 1 rates are in effect.
   (c) At export locations, the request for monthly averaging stays in effect until canceled.
   (d) An applicant’s written request to establish or cancel monthly averaging for the coming month must be received by 2:00 p.m. of the last business day in the month.
   (e) Service cancellation fees, WAC 16-240-054 are not considered to be revenue under monthly averaging.
(f) The monthly revenue minimum charge applies only to the Tier 1 rate shown in USGSA Table 1 under WAC 16-240-070 (2)(b) and AMA Table 1 under WAC 16-240-080 (2)(b) of this schedule. When either the Tier 2 or Tier 3 rate is in effect, export locations will not be subject to daily revenue minimum charges during the balance of the Tier 2 or Tier 3 rate period allowed under WAC 16-240-043.

(i) Upon the applicant’s written notification to the department, the monthly revenue minimum will not be applied to the month in which an export facility resumes operations after an extended downtime. This exception for maintenance or repair is available once per fiscal year.

(ii) When the department provides services at a nonexport location or a transloading facility, and the hourly, unit, and applicable travel fees do not cover the cost of providing the service, a sufficient additional amount, calculated by using the straight time hourly rate per hour, per employee, will be added to the established fee amount to meet the revenue minimum.

WAC 16-240-039 USDA, AMS, FGIS administrative fee. The United States Department of Agriculture (USDA), Agricultural Marketing Service (AMS), Federal Grain Inspection Service (FGIS) charges a per metric ton administrative and supervision fee for export and other grain handled by facilities in the Washington State Department of Agriculture service area.

(1) FGIS administrative tonnage fees. In addition to all other applicable fees, FGIS administrative tonnage fees for export grain shipments inspected and/or weighed, excluding land carrier shipments to Canada and Mexico, will be assessed at the current per metric ton rate identified in FGIS Directive 9180.74 Service Fees and Billing Codes, Attachment 1.
