Jefferson County 2020: There are incredible efforts being made to address food security in our state beyond just those of WSDA Food Assistance programs. This county snapshot focuses only on WSDA Food Assistance programs key services and programming to support the hunger relief system. Due to COVID-19, we have added statewide projections, WSDA COVID-19 food security response efforts, and critical areas of concern.

Food Assistance core programs without COVID-19 support see page 2 for COVID-19 response

Federal data is collected at the contractor level and estimated at the county level
State tribal data is collected at the contractor level and estimated at the county level for subcontractors
State Programs - Statewide

SUPPLEMENTAL - Temporary Funding  (Not all counties received direct funding but may have benefited indirectly, data is not final)

F2FP, CAPACITY

$600,000 125 97
Operational Funds Participating Organizations Participating Farms

County Highlights: Contracted with 8 farms to serve 4 food pantries resulting in 2,301 lbs of produce. Received 1 refrigerated capacity grant and state capacity funding to expand cold storage.

WSDA COVID-19 Response

SUPPLEMENTAL - Additional Appropriations for WSDA Food Security Efforts

Food security issues in the wake of the COVID-19 pandemic continue to emerge and evolve. WSDA in partnership with the Governor’s food security team, state agencies, and the hunger relief community has responded to this crisis by expanding its purchasing role to address food supply chain disruptions and by providing economic opportunities to offset the negative impacts on Washington’s agricultural sector. We provided significant supports for hunger relief organizations by funding critical capacity needs like mobile food pantries, refrigeration, PPE, fresh produce boxes, emergency food boxes, and mobilization of volunteers.

WSDA COVID-19 Response

COVID-19 WSDA 2020 FOOD SECURITY RESPONSE

$105 Million
WSDA’s 2020 Statewide Food Security Response

COVID-19 WSDA ‘21-23 PROPOSED FOOD SECURITY RESPONSE

$54.3 Million
WSDA’s ‘21-23 Proposed Food Security Response

This one time pandemic infusion was invaluable but will leave many emergency food providers facing a funding cliff in 2021 and beyond. State, Federal COVID-19 response funds, and the Trade Mitigation Program are set to expire. We anticipate that client need will continue to grow, donations will remain at reduced levels, and hunger relief organizations will struggle to maintain services. If non-governmental resources are less than anticipated, then we may need to increase our current funding requests. Without additional resources, the impact on Washington communities could be devastating. For additional information on WSDA’s food security response, please see https://agr.wa.gov/coronavirus.
