### Section A. Livestock Flow Chart

1. Provide information regarding the flow of animals through your system. Include source of animals, living conditions for each stage of production and final destination of animals. This may be in a narrative form or submitted as a flow chart. **If you have more than one species or category of livestock (e.g. broilers, layers, swine, beef and/or dairy), please submit an individual flow chart for each species or category.** Refer to the example below and attach additional sheets as necessary.

Flow chart and/or additional narrative:

- **Calves born on farm**
- **Raised in hutches for 12 weeks**
- **Calves pastured at 12 weeks**
- **Steers to slaughter at 18 months**
- **Heifers bred at 18 months**
- **Cows move into milking rotation**
- **Flock1 Chicks received from hatchery**
- **Brooder for 3 weeks in house**
- **Moved to pens on pasture 1, 2 and 3 at 5 weeks**
- **Slaughter on site beginning week 8**
- **Flock one sold on site on day of slaughter.**
