94% of Washington’s farms are small farms – selling less than $250,000 per year...

In 2019, Washington agriculture production alone topped $9.49 billion

Apples are not only Washington’s top crop, they represent 20% of the total value of ag production in the state.

Ship loading wheat on the Columbia River

Food processing generated more than $20.1 billion in revenues

... and small farms are 65% of Washington’s total farmland, far higher than the national average of 45%.
