

Be Ready to Evacuate

You can save the day and protect your animals by having a plan.

✓ Vehicles

Make sure your trucks and trailers are ready to evacuate your animals. Check the tires, and fuel up.

✓ Support

Who can you rely on: are there neighbors and family to assist? Have their contact info clearly posted, and know where you will take your animals.

✓ Fresh water

Make sure animals have plenty of clean fresh water, dry bedding and extra food.

✓ Know your route

If roadways are flooded, or blocked, have a back-up route.

✓ **DON'T wait, play it safe and leave early.**
