New Spray Adjuvant Registrant Policy
Registration Services Program
Pesticide Management Division

Policy Adopted September 1, 2023

Brent Perry, Registration Services Program Manager

A handwritten signature in black ink, appearing to read "Brent Perry", is written over a horizontal line. The signature is stylized with large loops and a long horizontal stroke at the end.

To provide better service to our customers and expedite the application process, WSDA Pesticide Registration Services is implementing the following policy effective September 1, 2023:

If you are a new **company** attempting to register spray adjuvants on your own behalf or an **agent** representing a spray adjuvant company for the first time, you must complete a consultation with a registration specialist PRIOR TO submitting your first application to register a spray adjuvant in Washington State.

Consultations may be requested by contacting the Pesticide Registration Help Desk at pestreg@agr.wa.gov or 360-902-2030.
