

HAVE YOU SEEN THIS PEST?

Report Japanese beetle sightings!

Spring/fall – watch for Japanese beetle grubs in your lawn.

Summer – watch for Japanese beetle adults in your gardens, parks, and farms.

LARVA (grub)

- White c-shaped grub with brown/tan head and visible legs.
- From 1/8 inch up to about one inch long.
- Seen during the spring/fall.

ADULT

- Approximately 1/3 to 1/2 inch long.
- Metallic green head and thorax with copper wing covers.
- Sides of abdomen have five white patches of hairs, and tip of abdomen has two patches of white hair.
- Seen during the summer.
