

Marijuana Producers, Processors, and Retailers  
**Bulletin No 16-05**

**Date:** September 27, 2016  
**To:** Marijuana Industry Members  
**From:** WSLCB  
**Subject:** Updated List of Pesticides Allowed for Use on Marijuana

The Washington State Department of Agriculture (WSDA) has recently updated the list of pesticides that are allowed for use in marijuana production in Washington State, based on criteria previously established by WSDA.

WSDA has added 17 pesticides to the list of allowable products.

Pesticides containing one new active ingredient (*Beauveria bassiana*) were added to the list. Several of the pesticides that were added to the list contain active ingredients that were already allowed for use in marijuana production.

Please check your stock of pesticides against the list to ensure that you are using an allowed product.

**Added**

1. BotaniGard Maxx, EPA Reg. No. 82074-5
2. BT Bacillus Thuringiensis Ready-To-Use, EPA Reg. No. 70051-113-4
3. Culbac Green, EPA Reg. No. 59588-1
